cern Certain Dispatches  
taken From A Cor-  
respondent.

Associated Press.  
WASHINGTON, D. C., Sept. 6.—Secretary of State Robert Lansing granted an interview for tomorrow with Dr. Constantine Theodore Deniba, Austro-Hungarian ambassador, who desires to discuss the reports that he participated in a movement to interfere with the production of war material in the United States.

He is expected to explain dispatches which he sent to the Foreign Office of Vienna, seized by British authorities from James E. J. Archibald, American war correspondent, who was acting as his messenger.

These dispatches are said to have revealed the fact that the ambassador suggested plans of handicapping the munition plants in America; and also warning Austro-Hungarians from violating the criminal code of the native land by accepting employment in munition plants. This question does not concern any present in American diplomacy.

PROVIDENCE, R. I., Sept. 6.—Justice Willis S. Knowles of the Eighth Judicial District, was assassinated near his bungalow here. Two bullets lodged in the back, and one in the jaw. The assassin escaped. Revenge is the suspected motive.

Justice Knowles was unmarried.

The police are searching for the man who accompanied the Justice on hunting trips in an effort to throw light on certain heretical affairs.

Three shots were fired.

He had received many threatening letters and feared for his life.

## German Chancellor and Minister He Overcame

Dr. von Bernemann-Hollweg,  
Chancellor of Germany.

Chancellor von Bernemann-Hollweg, chancellor of the German Empire, has proved the victor in the intense tactical fight with Grand Admiral von Tirpitz, in command of the German navy, over the submarine policy, with the result that

Germany has virtually apologized to the United States for the sinking of the Lusitania and the Arabic. The originator of "Frightfulness,"

chancellor and the author of the policy of "Frightfulness" not the

## FOOD PLENTIFUL IN BRUSSELS

WORK OF AMERICAN RELIEF SO-  
CIETY HAS PROVED  
EFFECTIVE.

BRUSSELS, Sept. 6.—Thanks to the splendid work of the American Relief Fund, there is plenty of food in Brussels and abroad it is starving. There is, indeed, no lack of anything although prices are high.

The consumption of bread is controlled by law, but it is of good quality and ample in quantity. Some moving picture theaters are open, but the regular theaters are all closed. Telephones cannot be used, telegraphic cables are cut, and the postoffice is under control of the German military authorities.

A large number of German civilians have come to the city and many of them have employment, but all the municipal services are still worked by Belgians, and Belgians also police the streets under German military control.

Belgian society is now in a state of suspense, but the Belgian people are not inclined to be the tools of the Germans in oppressing the American relations. Details are being awaited.

WASHINGTON, D. C., Sept. 6.—There is nothing to indicate alarm concerning the restoration of the Belgian government, as the attitude of the American government is suspended by the absence of details.

General Frost reported that no Americans have been lost. He also said that the Belgians carried 1,000 men in the storm. However, the orders of the ship declare that it was different when it left New York.
